1. [REDACTED] will have passed the original of the reference on to you for action. I would appreciate it if you would coordinate this with Materiel and Operations as you see necessary and prepare a list of equipment and spare parts as requested in the memorandum.

2. You will note that [REDACTED] in making his request states (in Para. 2), "which are being or should be procured for the five aircraft." I interpret this as placing the responsibility on us for selection and would appreciate your advising me of your findings as soon as you have had an opportunity to do a study of the situation.
